Please click on ZOOM logo if you don't have ZOOM yet.
During "Learning Balloon" we will explore various
digital tools.
You are welcome to explore them before the training!
Click on logo for more infos!

TRAINER'S INFO

If you have any further questions, contact us at udruga.drone@gmail.com

Valentina

I am Valentina, better known to many as Roža. I've been actively working and working in the civil sector for the last five years, mostly as a trainer and educator.

On paper, I am a pedagogue and professor of French language and literature, but I personally consider myself a youth worker, that is, a person who helps young people realize their values and possibilities. Sometimes I am an activist, other days a volunteer, but I am happiest when I'm a youth trainer. I am super passionate about non-formal education and I believe that NFE is essential for one's personal growth and happiness.

Branimira

After working at the school for three years and years and years of volunteering in various organizations, I decided to look for a job in the civil sector.

In fact, the job found me and that was it. I am active in several organizations and initiatives (HDD, DrONE Association, Europe Goes Local, GOOD initiative, MMH) in various fields, especially in the field of youth work, education (with emphasis on civic education) and active participation of young people in local community. And lastly, I really love my job!

WHAT TO EXPECT?

Expect the unexpected!

One's learning process is our mutual responsibility and the quality of the training depends on all of us.

Still, expect having fun while learning!

And, of course, expect another Participant's Info Pack with few preparatory tasks!

Expect to be included in Facebook group where we will share information and ideas.

Lastly, expect to have a follow-up where we will guide you through the process and provide our best knowledge.

See you online!
